

## NATIONAL SCIENCE DAY ORGANIZED

‘National Science Day’ was organized with the theme ‘Science and technology for specially abled persons’ on 28<sup>th</sup> February, 2017 at ICAR Research Complex for Eastern Region, Patna. The day was celebrated to mark the discovery of Raman Effect by the famous Indian physicist Sir C.V. Raman. An interactive session between school students and the scientists of the institute was organized in which more than hundred students from different schools actively participated. The interaction was centered around the importance of agriculture science in daily life of human being and opportunities for the students in future agriculture. The students also visited different laboratories and experimental farms as well as they participated in scientific talks in various disciplines and science quiz. Enthusiastic participation of the students in the interaction and laboratory visits shows that research on agriculture could sustain to the next generation with yet to bloom buds.

Interactions among students and scientists on national science day
