12. **EXPRESSION OF INTEREST EVALUATION / SYSTEM OF SELECTION :-**

The system of selection will be **Price based System - Least Cost Selection (LCS)**. The details are as follows :-

In this method of selection, consultants/service providers submit both a technical proposal and a financial proposal at the same time. Minimum qualifying marks for quality of the technical proposal are prescribed as benchmark (normally 75 (seventy five) out of maximum 100 (hundred)) and indicated in the RFP along with a scheme for allotting marks for various technical criteria/attributes. Alternatively, since in LCS selection, technical offers do not require be ranked (or adding of weighted technical score to financial score - as in QCBS selection), it would suffice in appropriately simple cases if the evaluation criteria is only a fail/ pass criteria prescribing only the minimum qualifying benchmark. Thus, in LCS, a simplified evaluation criteria may also be used where instead of a marking scheme a minimum fail/pass benchmark of technical evaluation may be prescribed. Any bidder that passes these benchmarks is declared as technically qualified for opening of their financial bids. The technical proposals are opened first and evaluated and the offers who are qualifying as per these technical

evaluation criteria will only be considered as technically responsive, and the rest would be considered technically nonresponsive and would be dropped from the list. Financial proposals are then opened for only eligible and responsive offers (Financial bids of other unresponsive bidders remain unopened) and ranked. L-1 offer out of the responsive offers is selected on price criteria alone without giving any additional weightage to marks/ranking of Technical proposal. This system of selection is roughly the same as the price based selection of L-1 offer (among the technically responsive offers) in procurement of Goods/Works.
